

Commercial Journeyman Electrician

Position Overview

AJ Moore Electric, Incorporated seeks skilled, licensed Journeymen electricians for its commercial market segment. We are looking for the best and brightest, those who want to be a part of a growing, ethically-focused organization, a company striving to be the electrical contractor of choice in the Minneapolis/Saint Paul and surrounding areas. We want to be the best and we know we can't achieve this without the best talent in Minnesota.

Ideal candidates pay close attention to detail, possess positive attitudes, exhibit safety consciousness at all times, and provide exceptional client service. You are a team player and out-of-the-box thinker who wants more from your careers than punching a timeclock. You want to be a part of something big. If you are a solutions provider and love overcoming challenges that arise in the field, AJ Moore is a where you can build a lasting career. For your efforts in helping AJ Moore maintain its strong and growing industry reputation by recognizing the importance of completing projects on-time and within budget, you will be rewarded with a compensation package that includes quarterly bonus opportunities. Strong performers have opportunities for advancement. Advancing to Foreman status gives you use of a company truck and gas card.

This is a full-time position with benefits, including medical, dental, 401K match, and paid time off. Candidates will work locally within an approximate 80-mile radius. Work week is 40-hours with occasional overtime.

Primary Job Functions

- Troubleshoot both commercial and retail systems
- Repair or replace wiring, equipment, or fixtures using hand or power tools
- Follow state and local building regulations based on NEC
- Direct and train employees
- Participate in the constructions, installation, modification, maintenance, and repair of electrical systems, facilities, and related electronic controls and devices

Leadership / Teamwork

- Though receiving instruction from the project foreman, maintain self-motivation for ensuring projects are completed within scope and are of the highest quality craftsmanship
- Ability to work effectively in a team environment
- A can-do, positive attitude with a history of success

Minimum Requirements

- Minnesota-licensed Journeyman electrician

- Basic math skills
- Reading skills (basic instructional and technical information)
- Good communication skills
- Smart phone (desirable)
- Ability to read blueprints and technical diagrams
- Ability to pass background check and pre-employment drug screen
- Punctuality

Physical Requirements

- Crouching, stooping, kneeling, and bending
- Must be able to carry at least 50 pounds
- Ability to walk, sit, or stand for long periods of time
- Ability to climb ladders, stairs, and scaffolding
- Handling, gripping, and feeling is required for some activities
- Visual acuity is required on all jobs to inspect completed jobs
- May be subject to internal and external environmental conditions
